

Analytical & Instrumentation Specialists

Your Trusted  
Service Provider  
Since 1988

Our team of local, factory trained, and experienced field service technicians are here to support all of your field requirements, throughout Western Canada.

Extensive range of innovative level and flow measurements

High-visibility magnetic level indication and high-accuracy magnetostrictive level transmitters

Leading provider of reliable, accurate and stable gas measurement solutions

Non-invasive ultrasonic flow, concentration, and mass flow measurement

Advanced nucleonic instrumentation for level, density, and phase measurement

Ultrasonic technology for flare gas measurement, gas venting

Stationary fire and gas detection systems

Instantaneous water cut measurement using NIR technology

Process refractometers for in-line liquid measurements

High accuracy analyzers for Oil in Water, fluorescence, spectroscopy, and microscopy

High accuracy capacitance based watercut monitors

Industrial pH/ORP, Conductivity, Dissolved Oxygen Sensors

Primary flow elements, wedge meters, venturis, nozzles

Intrinsic safety, process I/O, industrial networks, surge protection

Distillation, Viscometers, Total Sulfur, Physical Property Analyzers

Oil and gas pressure transmitters

Ultrasonic technology for sand, vibration, leak, corrosion-erosion monitors

Environmental monitoring stack flow, opacity, stack gas measurements

FTIR analyzers for CEMS, environmental
